We are proud to be Hinckley's only Sixth Form.

Our expert team is here to support you as you grow into a confident leader, capable innovator, and a excellent communicator. We'll help you build the knowledge and essential employment skills you need to succeed in a world that's constantly evolving.

Whether you're aiming for university, a higher apprenticeship, or a competitive career, you'll leave us not only with an impressive destination, but with the self-belief and ambition to thrive on whatever world class pathway you choose.

EXPERTS IN A SEAMLESS TRANSITION

From GCSE to greatness

Our team are specialists in supporting your crucial leap from Year 11 to A Level. With years of experience teaching GCSE and Sixth Form students and with staff who have additional expertise as A Level examiners, we know exactly how to build on existing knowledge and guide you through the shift in pace, depth, and independence that post-16 study demands.

Rather than starting from scratch, our subject experts will harness your strengths, introduce effective new study strategies, and provide the tailored support needed to boost confidence and ensure long-term success.

PROUD TO SERVE OUR COMMUNITY

Where ambition meets belonging

The Hinckley Sixth Form offers more than just a fresh start - it's a place where students come together to form a vibrant, inclusive and ambitious community. In 2025, our new Year 12 cohort brought together young people from over 10 different secondary schools from across Leicestershire.

Students choose us because of our outstanding support, academic excellence and university-style environment - but they stay because of the friendships, freedom and sense of belonging they find here. Whether you're arriving with friends or excited for new experiences, you'll be joining a Sixth Form where everyone is warmly welcomed, respected and inspired to achieve their very best.

ACADEMIC ADVENTURE

Stretch, challenge and inspire

With a wide choice of A Level and Level 3 vocational courses, taught by subject specialists, including PhD holders and nationally recognised educators, you can build a programme of three or four courses tailored to your passions and future goals.

From mature, engaging course content to additional opportunities like the Extended Project Qualification (EPQ), our Oxbridge Applicants Early Entry Pathway, and 'Wise Up' study skills programme, we will go beyond the classroom to ensure that you stand out – both academically and personally.
